Hijacking Google...

In this report I'm going to reveal a fast way to "hijack" Google by bypassing regular SEO methods.

Using this method you can get rankings on the first page of Google for competitive search terms in 24-48 hours. Let me start with some examples.

Here are some real live examples of press releases I've submitted very recently using the PressCable service and the rankings of those press releases at the time of writing this report.

#1 And #2 For Marathon Conditioning Course

The screenshot shows a Google search interface with the query "Marathon speed course". The search results are filtered by "All". The first result is "Fastest Marathon Courses | FindMyMarathon" from findmymarathon.com. A red box highlights the text "#2 and #3 for Marathon speed course with over 8 million competing results...". Two red arrows point from this box to the "In the news" section and the second search result. The "In the news" section shows a headline "Marathon Conditioning For Beginners Runner Improve Speed Course Launched" from KEYC, dated 8 hours ago. The second search result is "Marathon Conditioning For Beginners Runner Improve Speed Course ..." from ktire.com, dated 9 hours ago.

\$369 per news release **\$499 per news release**

PRweb.com's premium distribution service gets the same coverage as SkyRanker but costs \$369 for one press release...

PRweb.com's \$369 cost cuts into your profits and can be a serious barrier for many people.

People do make profits even at this cost and somewhere around 1,000 people use Prweb.com's premium service for the simple reason that it's effective at getting traffic online.

It works because your content ends up on the trusted news channels.

The good news is what I have for you today is a lot cheaper.

4 Different Ways To Make Money...

Strategy #1 – Make Money With Local Clients...

- Choose 5 potential clients.
- Submit content via SkyRanker for each of them. You don't charge the client upfront.
- Then show the client the results when you have the content ranked.
- Control where the traffic goes from the content with a simple redirect script.
- If the client stops paying you you can send the traffic somewhere else.
- Charge \$25-\$500/month+ for the rankings.
- This is covered in detail in the SkyRanker training.

Strategy #2 – High Ticket Affiliate Programs...

- Choose affiliate programs that pay \$100+ per sale (SkyRanker training includes a list of high paying affiliate programs).
- Target keywords with “buyer intent” (SkyRanker training includes a pdf and video showing my proven keyword selection method in detail).
- Make profits immediately.
- Do this repeatedly so that you keep profiting from traffic that comes years after you've done the work building up your passive income.

Strategy #3 – Launch Jacking Product Keywords...

- Check out a launch calendar like Muncheye or JVNotifyPro, or Marketplaces like Clickbank and JVZoo to find a product you'd like to promote.
- Use SkyRanker to quickly rank for the product's name and buyer keywords like 'Product Name Review' or 'Product Name Bonus'.
- Link to your product review website or a landing page and enjoy the commissions!

Strategy #4 – Seeding Viral Traffic Campaigns...

- Place viral content on a minimalist landing page with nothing but the content and social share buttons.
- Submit a SkyRanker release promoting the content, and let PressCable drive 200+ backlinks to the site and a bunch of initial 'seed' traffic.
- Watch your rankings, traffic and social following increase — and if you happen to place an affiliate link on your landing page too — Enjoy Your Commissions!

Many More Money Making Strategies In The SkyRanker Training...

In the full SkyRanker training you'll see a whole different range of ways you can make money creating and submitting press releases with the PressCable service.

You've probably also thought of many different ways you can use the first page rankings and traffic you can get this way to generate profits for yourself.

Remember this method works because your content lands on authority **news** sites that people **trust**.

Ron Douglas We used SkyRanker for a local client's press release and it far exceeded our expectations. Not only did the press release rank in the top 3 for several of the client's main buyer keywords, the clients site also jumped up in the search results knocking a competitor off the first page in the process.

Our client is so happy that he's renewing with us for another \$5k contract. Very well done. For what they're charging, this service is a no brainer.

Questions And Answers...

Can You Embed Videos And Pictures In Your Press Release...?

Yes you can. If you wanted to get a video ranking high you could use this press release method to do it.

Can You Direct Link Your Affiliate Offer From Your Press Release...?

Yes you can. In the SkyRanker member's section there is full training on exactly how and where you should link to affiliate offers from your press release.

Will The Discount Offer Last...?

No. You should buy as many press releases you want at the low discount price right now. You can buy as many press releases as you want right now and use them in the future.

Can You Do More Than One Press Release For The Same Business Or Product?

Yes. You can do multiple press releases for the same business or product each targeting different keywords or releasing different news.

Which Package Do You Recommend?

Although the answer is ultimately 'whatever fits your specific needs', we recommend the 10 Credit Pack for Four Economic Reasons:

- You get the absolute lowest Price Per Credit, so your ROI on each is maximized (meaning more profit in your pocket)...
- You can submit more SkyRanker Articles in a shorter space of time, meaning you get more rankings, more traffic and more profit . faster. That means you can reinvest and grow your business faster, which means WAY more profit sooner, rather than later.
- You can use multiple SkyRanker Campaigns to grow your business in different ways, or concentrate on a single method and supercharge your efforts.

For example, you could do 5 campaigns for clients, 3 campaigns to promote an affiliate product, and 2 campaigns promoting your own product/site.

- You can use your credits at any time. They do not expire. So you can buy now and lock in the low prices while the discount is still running. Otherwise, next time you want front page rankings, you'd be stuck paying \$369 to one of our competitors like PRWeb.
