What's It About?

Munchweb's Facebook Profit Kit has been designed to allow all of us to take full advantage of Facebook now it has reached it's Maturity.

It has around 1,000,000,000 people to connect with, which makes it one of the biggest traffic sources in the world, and as it's now in "The Maturity Stage" of its business life cycle, it's easier now than ever before to tap into this traffic and make a big profit.

Facebook is also the web's leading source of the most high-value social signals, which Google relies on HEAVILY to rank websites... they've practically replaced backlinks!

So if you can master Facebook... you've got it made. And NOW is the time.

That's what Munchweb's Facebook Profit Kit will help you do.

Take a look at what you'd be getting...

What's In It?

FOR ONLINERS...

- **PART I - The \$100k Profit Funnel...**

This video details the precise funnel I use on my sites that helped me earn my first \$100,000 online and then my first \$1,000,000 and it's what I still use today to take me further and further through my online success...

Having a proven funnel set up makes earning money online almost a breeze... This same framework, when applied to your business, will do the same.

Many people online are completely without this knowledge and will continue to swim in circles because of that... but not you!

With the Facebook Profit Kit, you're starting on this funnel 2-3 steps ahead of what most people are... and you can rapidly expand from there. If you've got Facebook sorted, building a profitable website becomes a much simpler process!

- **PART II - The Authority Traffic Siphon...**

This is my favorite method of getting major authority sites to send ME traffic without me having to do much work at all... for free!

You can employ this method to forge solid relationships all around your niche for a whole lot of ongoing benefits in the form of profitable traffic, authority backlinks and even lucrative strategic partnerships!

- **PART III - Why People Fail On Facebook...**

Profiting with Facebook is simple and so effective when you know how... but many MANY people do not quite 'get it'.

Avoid these mistakes and you'll have a much smoother time using the Facebook Profit Kit to bring your business BIG Results!

- **PART IV - Hardcore Social Engagement Methods...**

Without Engagement on Facebook, your business is going nowhere.

Employ these Special Munch-Worthy Engagement Methods however... and you can take your business anywhere... It all starts with Engagement!

- **PART V - FB Games Software...**

There are 3 Main Things people do on Facebook...

... and playing games is one of them.

This software allows you to quickly and efficiently load up high quality web games (*that are already being played around the web*) to Facebook, allowing folks to spend more time with you and ramping up the engagement.

Having your own branded Games Platform on Facebook is huge.

 **There's More Below...**

- **PART VI - Driving Traffic To You Facebook Apps...**

Of course having your own games and apps is cool and super useful, but you need a way to drive traffic to them too...

This short report gives you 5x High-Potency Methods that are super simple to implement, yet bring in highly profitable results.

... especially if you end up using all five at once!

- **PART VII - Smart Guide To Product Creation...**

You can make plenty as an affiliate... but if you put out one or two (or twenty) of your own products, you are absolutely SET.

This is the single most profitable shift I made in my own online business, and the one thing that exploded my income.

But I also remember how nerve-wracking it can be when you go at it the first time... so I've pulled together this report exclusively for the Facebook Profit Kit.

... when you feel the time is right, you can use this guide and finally keep a hold of 100% of the revenue you make... instead of the 10% Amazon sends you!

- **PART VIII - Irresistible Product Graphics...**

Having professionally designed graphics for your info products has a crazy good effect on your profits... higher perceived value = higher profits!

Use these graphics templates to easily get your products noticed, and more importantly... purchased!

When you're ready to go 'Off-Facebook' and build up an email list (*to build a better relationship and earn higher profits with...*) then here are the absolute most important things you need to remember.

Because the money isn't in the list... it's in how you treat your list.

The lessons held within this specially crafted report (*again, not available anywhere else*) may be among the most important lessons you can learn online.

- **PART X - The Headline Handgun...**

And once you know more about how to write profitable emails than 99% of marketers online, you need to know how to get them opened (*like hotcakes!*)...

Here's how to write incredibly compelling headlines, even if you've had no copywriting experience before in your life (*hey, neither did I once!*)

 **FOR OFFLINERS...**

This comprehensive manual shows you step-by-step how...

- **PART II - Munchtastic Sales Training...**

While many lucrative deals can be made online or over the phone, nothing beats a face-to-face meeting to close a deal.

With the right training, you'll know what to do, how to handle it... and you'll have developed the confidence and faith in yourself to do so!

This even works to enhance your long-distance closes too...

Go get 'em Tiger!

- **PART IV - Munchtastic Client Love...**

Clients should not be a temporary thing...

A client who sticks with you for months and years can earn you hundreds of thousands of dollars.

A client who loves you will return to you for business, will pass on new business to you, and will become your own best salesman!

Getting a client to love you is easy. Here's how...

- **PART V - Munchtastic Video Ranking...**

Once you're generating leads and delivering high-end, high-value to clients who love you... where do you go from there?

It's time to look into other services you can offer for the bare minimum of work!

Getting traffic to your client's website through Video is one service that's virtually impossible to turn down... and it's one you can charge a nice chunk of change for too!

This is your first step in diversification!

FOR EVERYONE!

- **EXTRA: Munchweb's Outsourcing Guide...**
